**Winter 2010**

## **MEET WINTER ON ITS OWN TERMS.**

This winter we draw our inspiration from the rugged terrain of the alpine mountains. The dark grey sky and hard, frozen earth are reflected in our colour range. With the light grey of rivers heavy with melted snow, the soft blue sky and the muted hues of weathered limestone outcrops shrouded in mist.

However, the harshness of winter is softened by the resilience and luxury of Rodd & Gunn's natural fibres. Knitwear in Merino, Cashmere, Alpaca and Fair Trade cotton take their place alongside leather jackets that are soft, supple and naturally hard-wearing. For timeless style layer shirts made from the finest Italian cotton, with a soft V-neck knit and a tailored jacket.

Classic wool overcoats are ruggedly styled, while our timeless brushed cotton moleskin Barn jacket is a handsome original. Finally, team a hip-length overcoat with soft, wool blend traditional flannel trousers for a look of unmistakable refinement.
